ABOUT ME

UI/UX designer specialising in cross-border fintech flows and a 3× National Hackathon Finalist, recognised for driving a 60% rise in customer engagement and building funded, award-winning digital products. Winner of the Best MERN Stack Website 2024 and presenter at MTW 2025, with experience in user journeys, personas, product strategy, and scalable, high-impact design.

KEY SKILLS

- **UI/UX & Frontend:** Figma, Framer, Microsoft Clarity, Adobe XD, ReactJS, JavaScript, HTML & CSS.
- **Programming & Backend:** Basics in ExpressJS & NodeJS, MongoDB & Firebase, SQL & Python, Java, C++.
- **Cloud & DevOps:** AWS (EC2, VPC, S3, IAM), Git & GitHub.
- **Soft Skills:** Team Leading, Financial & Marketing Strategies, Customer Journey Strategies, Public Speaking.

EXPERIENCE

UI/UX Designer, Javascript Mumbai

March 2026 - Present

- Lead website design and design system development from the ground up
- Create marketing, branding, and web assets that drove **700+ user registrations** within one week
- Conduct community meetups and produce branding content for partner organizations, including **Paytm and Master Union**
- Collaborate with cross-functional teams to deliver cohesive digital product experiences

UI/UX Lead, Winvesta

May 2025 - December 2025

- Led end-to-end UX for a cross-border payments and investment platform managing **\$1.2M+ in transaction volume**, improving usability across complex fintech workflows.
- Designed **15+ key features**, including Custom Invoicing, product redesigns, and a website revamp serving **150K+ users** contributing to a **25%+ increase in onboardings** through data-driven design decisions.
- Built Winnit, a collaborative AI workspace with multi-model support, shared workspaces, and optimised onboarding flows.
- Created marketing visuals for an **18k+ LinkedIn community** and collaborated with founders, engineering, growth teams, and international customers.

Trainer, ITM Business School

January 2025 - February 2025

- Trained **70+ MBA students** in UI/UX, data science, and scalable storage strategies, improving website design, efficiency, and user engagement. Taught Git, GitHub, version control, and command-line, strengthening collaboration and project management skills and simplified OS concepts and introduced no-code tools, enabling efficient app development and streamlined workflows.

Intern, LetsUpgrade.in

December 2024

- Led user research and marketing strategies for [12thClass.com](#), optimising website engagement and enhancing user experience for a company with **10,00,000+ users** and refined UI/UX design and content flow, improving accessibility, navigation, and overall customer satisfaction.
- Conducted data-driven analysis using Google Analytics, identifying key engagement gaps and collaborating with developers and marketing teams to implement solutions aligned with business goals, boosting retention.

PROJECTS

- [AI Tools Website](#) - A creative AI-powered design platform that brings smart utilities and automated workflows together to help designers move faster from idea to execution.
- [Consumer Card Optimization](#) - A modern banking website designed to simplify financial product discovery, comparison, and decision-making through clear navigation and an intuitive user experience.
- [Vitals - Hackx 2025](#) - Engineered a smart insurance assistant with risk analysis and intuitive UX, showcased at MTW 2025 and recognised by national & international leaders.
